The playground can be a tough and challenging environment for any ride-on toy or cycle especially if it is designed for larger and heavier individuals.

Theraplay's new range of tricycles have been specifically designed to handle the knocks, bumps and scrapes which happen in the day-to-day life of playground equipment.

Designed in conjunction with special schools and therapists, the **TUFF Trike** is available in three sizes ranging from 8 years of age to adult. The frame is constructed from large profile flat-sided oval tubing to provide extra strength to accommodate larger and heavier riders.

The wheels run on sealed maintenance-free bearings and are fitted with broad tread all terrain tyres. **TUFF Trikes** are manufactured using quality materials and components, giving many years of trouble free play.

TUFF

Quick Adjust seat positions which require no tools to adjust

Steering limiter to control the degree of steering to prevent finger trap issues and to provide greater stability

All terrain tyres which have a broad tread pattern for extra grip on a variety of playground surfaces

Large profile steel tubing to provide strength

Model	Length	Width	Height	Pedals (min)	Pedals (max)	Max. User Weight
Size 1 (Green)	1,015mm (40")	730mm (28 3/4")	940mm (37")	560mm (22")	660mm (26")	100kg (220lbs)
Size 2 (Red)	1,140mm (45")	730mm (28 3/4")	1,020mm (40")	660mm (26")	760mm (30")	135kg (300lbs)
Size 3 (Blue)	1,290mm (51")	730mm (28 3/4")	1,020mm (40")	740mm (29")	890mm (35")	135kg (300lbs)
